

Congressman Greg Walden and Congressman Mike Pence filed the [Broadcaster Freedom Amendment](#) last night to the Financial Services Appropriations Bill that would kill any funding for the so-called "Fairness Doctrine" as well as stealth Fairness Doctrine in the form of proposed broadcast localism regulations.

Democrats from Speaker Nancy Pelosi to Senators Dick Durbin, and John Kerry have called for the return of this kind of regulation to the airwaves of America, but thanks to the support of millions of freedom-loving Americans, we were able to mostly close the front door to this government censorship.

So now they are trying to sneak through the back door with regulations known as 'broadcast localism.' These regulations are just a Trojan Horse for unelected bureaucrats in Washington to determine what you can or cannot listen to.

In a time when we are witnessing an unprecedented intrusion of the federal government into various sectors, the last thing we need is a government takeover of America's airwaves. It's not what the American People want, and it's not something this Congress should allow.

Let your Member of Congress and demand an up-or-down vote on the Walden-Pence Broadcaster Freedom Amendment. Call TODAY, Tuesday, July 14 because the Rules Committee is scheduled to meet at 3:00pm to decide which amendments to allow. If our amendment is made in order, it can be offered on the House floor when the Financial Services Appropriations bill is considered later this week. The Capitol Switchboard is **(202) 224-3121**.

Let's get the word out: **No More Government Takeover**. This amendment would stop the government from taking over the airwaves and would preserve our cherished First Amendment right to freedom of speech.

Congressman Walden and Congressman Pence also made the following video to send to supporters and freedom-loving Americans to raise awareness about their amendment. Audio-only is available [HERE](#).

Congressman Walden and Congressman Pence Introduce "Broadcaster Freedom Amendment"
